

MAT 214: Processing and Properties of Ceramic Materials

History of Ceramic Materials

Prof. Joshua C. Agar

jca318@lehigh.edu

Materials Science and Engineering

Lehigh University

January 22, 2022

Office Hours

I would like to schedule a fixed time for office hours. Since Homework and a majority of quizzes are due on Monday I will recommend later in the week.

Office Hours

I would like to schedule a fixed time for office hours. Since Homework and a majority of quizzes are due on Monday I will recommend later in the week.

Are there specific times that work well for you?

Are there specific times that work well for you?

Office hours outside of these times can be made by appointment. Prof. Agar will do his best to accommodate you within 24 hours.

Travel Requirements

Prof. Agar had existing commitments for the Spring 2022 Semester. Since, there was not another prepared instructor to teach the course Prof. Agar decided to teach the course for the best experience.

Prof. Agar's existing commitments require him to travel and thus be unavailable at the designated lecture time.

Specific dates are:

Jan. 31, 2022

Feb. 7, 2022

Feb. 9, 2022

The following options are available:

- I could provide asynchronous lecture
- For Feb. 7 and 9, we could find an alternative meeting time for a remote Lecture
- We could add makeup class periods at a different date throughout the semester. This could be in person.

Introductions

I want to get to know all of you. Let's go around the Zoom room and introduce ourselves.

- Name, preferred-gender identity, Year, Major
- Why you took this course? what are you looking to learn from this course?
- What do you wish you learned more about in your courses?
- Something fun you picked up because you had more time at home during COVID?
- What are your plans for the summer? Let's hope that it COVID is close to an afterthought.
